County Executive Alsobrooks Utilizes CARES Act Grant to Support Local Businesses

County Executive Angela Alsobrooks and the County Council authorized the use of \$20 Million from the County's federal CARES Act allocation to support Prince George's County businesses that have been adversely affected by the COVID-19 crisis. Until recently, Prince George's County has supported local businesses through its COVID-19 Business Relief Fund (BRF), which was launched on April 13, 2020 by the Prince George's County Economic Development Corporation and the Financial Services Corporation (FSC First). Because of the severity of the pandemic on the regional and national economies, it became apparent that Prince George's County businesses had applied for almost three times the BRF's available \$10 million.

Prince George's County received \$158 million from the federal CARES Act; \$20 million of which will be set aside to fund the County's new **COVID-19 Business Recovery Initiative (BRI)**. The BRI will replace the multi-million-dollar Prince George's County COVID19 Business Relief Fund, which provided low-cost loans of up to \$100,000 and grants up to \$10,000. The primary difference between the two funds is that, all disbursements from the BRI will be grants.

Under the BRI, grant amounts will range from \$5,000 to \$100,000. In addition, **the eligibility criteria have been expanded to include sole proprietors, 1099 contractors and co-ops.** Recipients can still utilize the BRI to support cash operating expenses including payroll, suppliers, rent, fixed debt payments and other business critical cash operating costs.

Next Steps: Find your status below and proceed accordingly:

A. Applicants who have applied for and **received funding under the former BRF:**

1. If you received a direct loan, your loan will be converted into a grant. No further action is required by you. The loan agreement and documents associated with it including the personal guaranty will be extinguished.
